Richwil Crown & Bridge Remover

15% OFF

The Richwil Crown and Bridge Remover is a safe, non-traumatic way to remove crowns, bridges and inlays. The Remover also serves as a convenient aid during fitting procedures. This water soluble, pliable resin adheres to porcelain, enamel, gold and acrylic. Will not damage restorations. Ideal for the removal of temporary or permanent crowns. Works quickly and safely.

The Remover requires no drilling, clamping, prying, cutting or percussive force. Restoration surfaces remain undamaged. Avoids dangerous angular forces and potential patient trauma.
